## New and noted

We're loving the deliciously soft cashmere-blend scarves from new brand Bird and Knoll, digitally printed with photos of exotic destinations — Bali, South Africa, Majorca, Marrakech and Provence. The brand arrives in stores this week, including at Siena and Simon James Concept in Auckland. Pictured is the "Bali" scarf (\$298). [birdandknoll.com](http://birdandknoll.com).

## I Tried . . .

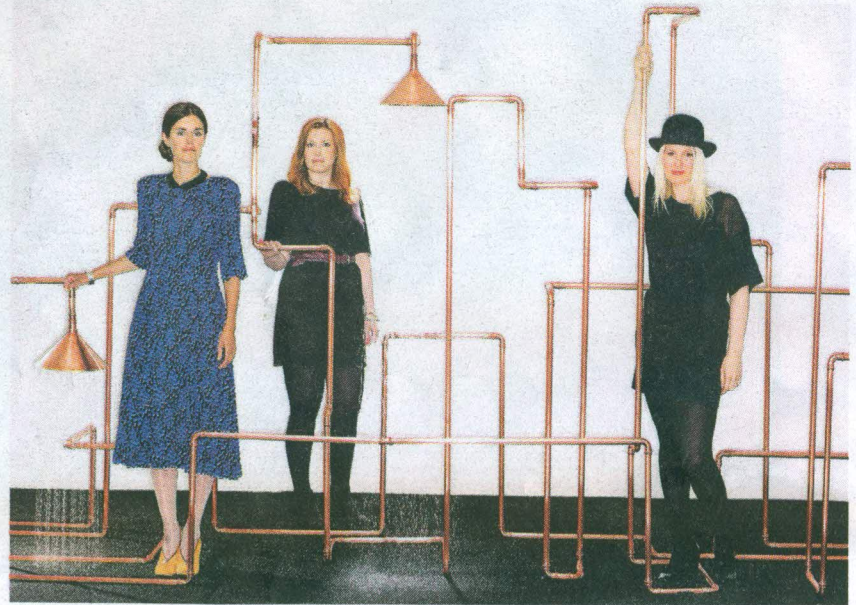

"This gorgeous book of nourishing recipes is keeping me happily busy in the kitchen. I've given myself the goal of making every recipe to help kick-start my year on a healthy note. *Bestow Within, the natural food journal, volume 1* is a collaboration between Janine Tait and Sheryl Nicholson, talented Tauranga-based women who believe that beauty and health comes from within. Their first collection of recipes is beautifully produced, and thankfully is small enough (80 pages, 35 recipes) that my goal is within reach."

## LUST LIST

Showers just got a lot hotter, with the Axor WaterDream by Front winning the coveted *Wallpaper\** Design Award 2014. Judged by the likes of Victoria Beckham and Spike Jonze, the concept by Swedish designers Front (pictured with the design) for Axor pays homage to the plumbing trade with its exposed pipes. Smaller components are available at Matisse, priced from \$1260. Ph (09) 302 2284.
